

Cherry Hill Walk

Getting There

From the 103 Highway, exit at the Crousetown Road. Continue through to the stop sign at route 331. Turn right and continue on past Broad Cove to Cherry Hill. Look for the Beach Road on the left, and park at the Fire Hall on the corner.

There is no convenient short walk other than to walk up and back along part of route 331, perhaps as far as Cherry Cove. This would be about 5km return.

The Walk

On leaving the Fire Hall parking, turn left onto the highway and walk about 300m to the gravel New Zealand Road on the right. Take this road to its end at an intersection (1.8km). Go right and continue along this back road all the way to Broad Cove. You will pass five cemeteries along the way! When you reach this community, take the first narrow paved road to the right, at 4.5km.

After just 200m you come out to the highway route 331. Turn right again and continue all the way back along this shoreline road to the beginning. Total distance is 10km.
